The Western States have already secured nearly all the available floor space at the exposition They have appropriated large sums of money for the prosecution of the work necessary to have good representation. St. Louis, Philadelphia, Chicago, Roston and Cincinnati are all going to exceed New-York City in exhibits unless we speedily get to work, raise some money and get the merchants of our city interested. So far we have only twenty-five or fifty merchants who have signified their intention to send exhibits to the exposition. We have about \$5.00 to erect our State building; and while it will not be elaborate. I hope it will be worthy of New-York. Governor Black has accepted an invitation to he present on New-York State Day, in October, and that has been hoped that a New-York City and a Buiffalo regiment will accompany the State Executive to Nashville, but the Commission thinks it will cost too much to pay the expenses of the regiments. BERTILLON SYSTEM IN USE.

CHIEF CONLIN STARTS IT, AND BY STEALING A MARCH ON THE COMMISSIONERS PLACES

IT IN O'BRIEN'S CARE. The Bertillon system for measuring criminals, over which the Police Board has been at loggerheads for some time, was put in operation yester-day morning at Police Headquarters, under the direction of Captain O'Brien of the Detective Bu-reau. The photographing of the prisoners was also started. This means a victory for Chief Conlin against the opposition of Commissioners Roosevelt and Andrews. Commissioner Parker also shares materially in the conquest, as he was all along in favor of having the new system connected with the Detective Bureau. After a tie vote of the Po-Board at Wednesday's meeting left the system still inoperative, Chief Conlin played a sly trick. He transferred the men in charge of the new system to the Detective Bureau. He also gave orders that the measuring and photographing of priso ers should be started yesterday morning. His orders

were given to Captain O'Brien.

The first prisoner measured and photographed ecording to the new arrangement was James alias according to the new arrangement was James alias "Red" Sullivan, an ex-convict, who was arrested on Tuesday night for robbing a drunken man at Park Row and Pearl-st.

The action taken by Chief Conlin will possibly save further contention among the Police Commissioners over the Bertillon system. Commissioner Andrews's idea was that, as Captain O'Brien had expressed opposition to its adoption, he should not be intrusted with its supervision. Commissioner Parker maintained that it was a necessary adjunct of the Detective Bureau, and that Captain O'Brien should therefore conduct it.
